📍 Nigeria

SUMMARY

I'm a Cloud Solution Architect Associate level knowledge with strong customer focus and good business acumen. Proficient in deploying and managing Linux systems. Well-acquainted with databases, networks and security practices. With a year of experience in designing and implementing scalable solutions for high traffic websites. Considerable technical understanding, extensive problem-solving abilities, and the capacity to work on many projects at the same time.

EXPERIENCE

Solutions Architect

AWS APAC FORAGE

📅 02/2024 - 04/2024 📍 Lagos Nigeria.

Designed Simple and scalable hosting architecture for multiple clients

- Designed and maintained APIs fetching billions of data points related to patient health information resulting in continuous availability for customers.
- Described my proposed architecture in plain language ensuring my client understood how it works and how costs were calculated.

Solutions Architect

ALX Africa (Bootcamp)

📅 08/2023 - 03/2024 📍 Lagos, Nigeria.

Identifying organizational problems of IT companies and proactively profounding a lasting solution to it.

- Maintained a high level of industry knowledge to recognize solutions that simplified deployment, and improved agility to cost-effectively accelerate application delivery.
- Designed, both technically compliant and secure Cloud solutions, as well as value-based, on-demand services to facilitate the effective transition and migration of projects and programs into unique and adaptive cloud environments
- Remained up to date with industry knowledge to maintain and improve enterprise and business platforms.

EDUCATION

Bachelor of Science, Economics

Federal University of Agriculture, Abeokuta

📅 09/2017 - 03/2023 📍 Ogun

CERTIFICATIONS

AWS Cloud Computing Practitioner.

Obtained certification from Amazon Web Services (AWS)-
<https://cp.certmetrics.com/amazon/en/public/verify/credential/ZZJXTGN188BQ1LGR>

AWS Certified Solutions Architect - Associate

Obtained certification from Amazon Web Services (AWS)-
<https://cp.certmetrics.com/amazon/en/public/verify/credential/783ec7bf2cda4424a8ee52f38bd3bd36>

STRENGTHS

Problem-Solving

Delivered innovative solutions resulting in 30% reduction in processing time.

Collaboration

Worked with cross-functional teams to ensure seamless integration of software components.

Adaptability

Successfully managed changing project requirements and tight deadlines without compromising quality.

PROJECTS

LAMBDIFY.

An End-to-End AWS Web application using 5 services: IAM to manage permissions, DynamoDB to store data, Lambda for serverless computing, Amplify for frontend development and deployment, and API Gateway for managing RESTful APIs.

STATICITY.

A Static Website with AWS services: Amazon S3 for hosting, and CloudFront for content delivery, particularly for caching and low latency. I also explored the cache invalidation feature so that updated contents can get to consumers as and when required.
